UZBEKISTAN

One of the Best Markets for Partnerships Between Banks and Crypto Companies

Uzbekistan

octobank

Why the Market Suits Partnerships Between Banks and Crypto Companies

Established Payment Infrastructure

Payment systems, ATMs and bank cards make it possible to integrate crypto assets into familiar payment channels without building a new system from scratch

A Regulated Market Reduces Risks for Banks

Uzbekistan has established a licensed market for crypto asset service providers

Crypto Assets and Simple Payments for Customers

Bank cards, mobile apps and QR payments serve as a bridge between crypto assets and the real economy

Crypto Assets as Part of Everyday Banking Services

Instant-Issue Cards

HUMO, Visa and Mastercard cards turn crypto assets into an everyday payment tool

Card-Issuing Kiosks

A fast way to scale card issuance and activation through banks’ self-service infrastructure

QR Cash-In / Cash-Out

Customers can quickly top up their crypto wallets or withdraw funds using QR codes

Crypto Assets and Banks

From Infrastructure to Mainstream Adoption

octobank

01
