Intelligence

Revenue recognition & Policy advisor

Challenges:

- Manual reviews
- Fragmented insights
- Pressing audit deadlines

Benefits:

- Analyzing the complex and large SoW
- Key insights into Performance Obligations & sound accounting recommendations
- Support with audit documentation
- Contracted Revenue forecasting

Insights

Platform for data insights and analysis for decision making

Challenges:

- Data was stored in different applications
- Decentralized analysis of customer contracts

Benefits:

- Access controlled real time insights – like account wise payment terms, discount & penalty clauses...
- Generate comparative analytics'
